

Brussels June 20, 2007,

Partnership OME-ARE

- **On June 2007 ARE and OME signed a Memorandum of Understanding to outline the basic collaboration lines between both organizations within the field of rural electrification, including the development of joint activities such as the organization of events and the elaboration of different materials on rural electrification.**
- **ARE is also member of the Renewable Energy and Sustainable Development Committee created by OME to promote renewable energy, energy efficiency and sustainable development in the Mediterranean region; a PV task force has been formed within this Committee to focus on PV development, situation and prospects in Southern Mediterranean countries.**
