About

Under the 'DRE Recovery Campaign', ARE will curate a short promotional video of up to 60 seconds to highlight the critical role of decentralised renewable energy (DRE) in supporting communities recover better and faster from the pandemic while boosting climate change adaptation, mitigation and resilience.

Any institution, company or individual can contribute with a video footage.

Criteria

- Good quality video footages
- No company logo or texts
- Project video footages from the field are highly welcome

Kindly send your footages to o.ozkan@ruralelec.org (cc to a.soler@ruralelec.org) by 10 December 2021.

Copyright, license, releases and permissions

Each video contributor grants Alliance of Rural Electrification (ARE) and the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH, which implements the European programme GET.invest, a royalty-free, global, perpetual, non-exclusive, free of charge license to display, distribute, copy, and reproduce in any medium the video(s) submitted, and to use the video(s) in derivative works such or via any means or form of dissemination. ARE will include full credit to the video owner every time it is used.

It is the responsibility of each video contributor to obtain all relevant model and/or property releases. By submitting video(s), each video contributor guarantees that all the material is their original work and no copyright and/or trademark infringement rights have been violated. It is not the responsibility of ARE nor GET.invest to obtain model and/or property release forms or to assure/examine protection of trademark or copyright infringement rights. Each video contributor confirms that personal data, including owner's name, location, and title, may be used for advertising and promotional purposes in the context of the promo video and for any other purposes outlined in these official rules.
